Subject: Re: Bill's Roadster

Henry-

A note of interest. We had a 1958 Speedster here a few weeks ago for a photo shoot. The owner let me drive the car. I drove Bill's/your IM Roadster around to the back of the building to park it yesterday and experienced the well known advantage of an IM. The difference, just in that short drive, was so vast. The car was so much better than the real thing. When I drove the '58 it was quite a let down (I hadn't driven a real one in a long time). Your car was so much better. That's why some day when I can I would love to have one of your cars. Thought you would enjoy that story.

Have fun in your garage!
